Adil is undertaking a civil pupillage under the supervision of **Daniel Metcalfe**. Adil has completed his first six months of pupillage and is now available to accept instructions.

Since beginning his second six, Adil has been instructed in a wide range of contractual disputes, PPI mis-selling and unfair relationship claims, winding up petitions, possession orders and data protection cases. Those instructions have led to him gaining experience of various dispute resolution hearings and small claims trials, application hearings and different procedural issues. Adil is adept at witness handling, both in conference and court, and his ability to navigate sensitive hearings both for and against litigants-in-person has been praised by judges and opponents.

Adil regularly provides written advice on matters of contractual dispute including misrepresentation and breach of contract and is thorough in his exploration of potential causes of actions. In addition to advising, Adil has gained experience in drafting statements of cases for contractual disputes. Adil prides himself in his communication with clients and ensures that they are kept informed at all stages of litigation.

Before commencing pupillage, Adil participated in various national and international mooted competitions and was highly ranked consistently. Adil also worked with victims of human trafficking through the award-winning Liverpool Law Clinic Anti-Human Trafficking project in 2019-2020. He managed case files as well as translated for Urdu-speaking clients.
